

IMSAI ECO 25-0002

Engineering Change Order for: CP-A Rev-4

Summary

A power cable has been added to the BOM for the CP-A Rev-4 kit.

Details

Previous CP-A kits did not come with wire to connect the power switch (pads A and B) to a power supply switch. A CABLE CG was added to provide the wiring with a Molex connector for easy disconnection.

Notes

See the CABLE CG drawing for details.
